

**Group ID : 9**

**Title :** Private Tor network

**Group Members:**

Kushagra Arora	2015049
Rishabh Garg	2015076

**Objectives:**

1. Configure a private tor network to run on multiple machines.
2. Setting up directory authorities and exit and relay nodes.
3. Analyse and monitor the network traffic using [Chutney/Shadow](#).

**Milestones:**

- 1 | March 27, 2017 | Configure the nodes (VMs) to act as relays to establish Tor network
- 2 | April 10, 2017 | Configure directory authorities to recognise the nodes.
- 3 | April 24, 2017 | Monitor the network and traffic using the above mentioned tools.
